

Force X Generation 2

Solid carbide multi-material drills

**Certainty
at every turn™**

High-performance solid carbide drills for various materials

Boost productivity with versatility and durability

Introducing Force X Generation 2 – the perfect solution for demanding drilling applications. Available in both through-coolant and solid versions, this series includes 3xD, 5xD and 8xD for different drilling depths.

These solid carbide drills feature a 140° self-centering 4-facet split point and advanced CTW flute design, delivering superior hole quality in diverse materials (H9 hole tolerance).

With a TiAlN-top coating that enhances hardness and extends tool life, Force X Generation 2 ensures reliable performance even in challenging applications in ISO P, M and K material groups.

Features & benefits

Unique flute design with continuously thinned web and rolled heel.

Reliable chip control

ensures smooth evacuation across P, M and K materials.

Sub-micron grade carbide substrate.

Extended edge toughness and balance of hardness

delivers stable performance and long life in varied material conditions.

TiAlN-Top coating for wear protection.

Improved tool life

lower coefficient of friction maintains performance at high speeds over longer runs.

S-shape 4-facet split point with fine honing.

Accurate hole positioning

supports clean entry, exit and high-quality surface finish.

Optimized chisel with strong corner geometry.

Higher feed rates

reduce cycle times and boost productivity per part.

Fine edge honing treatment

CTW flute construction enhances chip evacuation and maintains optimal cutting speed

Features & benefits

Success stories

Achieve **57%** longer tool life at **35%** lower cost in steel machining

Customer result: Force X Generation 2 drill delivers outstanding performance in steel machining, achieving 57% longer tool life (640 vs. 408 holes) compared to premium competitor tools. Despite a comparable tool price, Force X Generation 2 lowers tool cost per piece by 35%, making it the clear choice for cost-efficient, high-performance drilling.

With the same cutting parameters, it maintains productivity while significantly reducing total tool costs. For manufacturers aiming to maximize output and profitability, Force X Generation 2 sets a new benchmark in ISO-P applications.

Success stories

Boost productivity with 108% higher feed rates in steel drilling

Customer result: The Force X Generation 2 drill sets a new benchmark in multi-material machining, delivering up to 108% higher feed rate and 51% higher cutting speed in 4140 steel compared to premium competitor tools.

Even in demanding stainless steel applications, it achieves 8% higher feed rate and 4% higher cutting speed, ensuring superior productivity across ISO-P and ISO-M materials. With no visible tool wear in early trials, Force X Generation 2 proves its capability for cost-efficient, high-performance drilling in small batch operations.

FORCE X Solid Carbide 3XD Drill, TiAlN-Top Coated

High-performance drill is specifically designed to deliver superior hole quality at high speeds and feeds (H9 hole tolerance for multi-materials). A 140° self-centering, 4-facet split point and CTW flute construction. TiAlN-top coating increases surface hardness, enhances wear resistance, and extends tool life.

FORCE X Solid Carbide 3XD Drill with Coolant Feed, TiAlN-Top Coated

High-performance drill is specifically designed to deliver superior hole quality at high speeds and feeds (H9 hole tolerance for multi-materials). A 140° self-centering, 4-facet split point and CTW flute construction. Coolant holes enhance chip evacuation. TiAlN-top coating increases surface hardness, enhances wear resistance, and extends tool life.

HM	DIN 6537	3xD
140°	TiAlN Top	DIN 6535HA
CTW	R	DC m7

Workpiece material group suitability, starting values for cutting speed (m/min) and feed Alpha Code. Tables with feed per revolution can be found starting from page 22.

FORCE X Solid Carbide 5XD Drill, TiAlN-Top Coated

High-performance drill is specifically designed to deliver superior hole quality at high speeds and feeds (H9 hole tolerance for multi-materials). A 140° self-centering, 4-facet split point and CTW flute construction. TiAlN-top coating increases surface hardness, enhances wear resistance, and extends tool life.

HM	DIN 6537	5xD

FORCE X Solid Carbide 5XD Drill with Coolant Feed, TiAlN-Top Coated

High-performance drill is specifically designed to deliver superior hole quality at high speeds and feeds (H9 hole tolerance for multi-materials). A 140° self-centering, 4-facet split point and CTW flute construction. Coolant holes enhance chip evacuation. TiAlN-top coating increases surface hardness, enhances wear resistance, and extends tool life.

HM	DIN 6537	5xD
140°	TiAlN Top	DIN 6535HA
CTW	R	DC m7

Workpiece material group suitability, starting values for cutting speed (m/min) and feed Alpha Code. Tables with feed per revolution can be found starting from page 22.

FORCE X Solid Carbide 8XD Drill with Coolant Feed, TiAlN-Top Coated

High-performance drill is specifically designed to deliver superior hole quality at high speeds and feeds (H9 hole tolerance for multi-materials). A 140° self-centering, 4-facet split point and CTW flute construction. Coolant holes enhance chip evacuation. TiAlN-top coating increases surface hardness, enhances wear resistance, and extends tool life.

HM	WORK NORM	8xD
140°	TiAlN Top	DIN 6535HA

Solid carbide drills – Feed rate chart (Metric)

How to use this table to find the feed per revolution f_n :

1. Find your Alpha Code on the product page (example: 46J, "J" is the Alpha Code).
2. Find the closest diameter for your cutting application in the top row of the table.
3. Find your Alpha Code in the left column of the table.
4. The intersection (cell) of the Diameter and Alpha Code is the feed per revolution f_n .

Certainty at every turn

Together we will keep our world turning, now and into the future. We want to help our community feel confident they can get the job done with simplified access to the right advice, tools and training whenever and wherever they need it. Delivering certainty to help our customers achieve their goals today – and be ready for tomorrow.
